Shield against the unexpected

IMPACT  **SECURITY**
GLASS SECURITY SOLUTIONS

Protection Without Compromise

Comprehensive security solutions tailored to safeguard what matters most.

ABOUT IMPACT SECURITY, LLC

Impact Security LLC is at the forefront of designing and engineering advanced security glazing and building product solutions that seamlessly integrate into architectural designs. Our patented **DefenseLite®**, **BulletShield**, and **RiotLite** systems provide an innovative, retrofit approach to fortifying glass doors, curtain walls, and vision glass—enhancing safety without compromising aesthetics. Impact Security's custom bullet-resistant wall panels, doors, and transaction windows provide a complete solution for specifiers looking to protect people and property. These solutions are engineered to mitigate risks associated with forced entry, ballistic threats, and smash-and-grab crimes, ensuring 24/7 protection for occupants and assets.

A nationwide network of Certified Dealers, building owners, GC's, and architects have direct access to Impact's comprehensive product portfolio, simplifying the specification and implementation process. As security challenges evolve, so do our solutions—continually advancing to meet new levels of forced entry and ballistic protection while maintaining design integrity.

As an AIA Continuing Education Provider, Impact Security empowers architects with the knowledge to specify the right security glazing solutions based on project scope, glazing system requirements, and real-world threat assessments. Our expertise ensures that security is seamlessly integrated into design—striking the balance between performance, aesthetics, and budget-conscious solutions.

MISSION STATEMENT

Our mission is to create safer environments by delivering durable, high-performance security solutions that protect people, assets, and the integrity of the spaces they occupy. We are committed to innovation, quality, service, and providing peace of mind to our clients.

When Minutes Matter

Fortify your space for an unpredictable world

Defend What Matters Most

In today's ever-changing environment, safeguarding your building, its occupants, and proprietary technologies is not optional—it's essential. Impact Security specializes in manufacturing and installing advanced security solutions that provide unmatched protection.

Comprehensive Security - Inside and Out

From exterior upgrades like bullet-resistant doors and windows to fortified interiors, including walls, reception areas, safe zones, and restricted access areas, our solutions are engineered to shield your buildings from threats. Whether you're retrofitting an existing property or outfitting new construction, our state-of-the-art systems integrate seamlessly into your space without compromising its architectural beauty.

**Government Hardening****BULLET-RESISTANT SECURITY PRODUCTS****RETROFIT FOR SAFETY**

Hardening government facilities enhances the security and resilience of buildings to protect against various threats, including physical attacks, shootings or bombings. We offer products to protect against rioters, active shooters and bomb blasts. Specifically engineered for courthouses, police stations and other government institutions, these custom-built security solutions are designed to blend in with existing architecture.

**1 MAINE ENTRY, LOBBY GLASS AND CURTAINWALLS**

Ballistic glazing provides both forced entry and ballistic resistance.

2 BULLET-RESISTANT PANELS

Decorative or concealed bullet-resistant paneling offers an immediate layer of protection for staff, without compromising interior decor.

3 TRANSACTION WINDOWS

Reliable bullet-resistant protection with personable face-to-face interactions are perfect for providing employees the confidence to safely serve customers.

4 PASS-THROUGH TRAYS

Bullet-resistant drawers that allow the exchange of documents while protecting employees.

5 MOBILE SAFESHIELD

A portable, bullet-resistant shield provides 360° protection, easily rotating to block attackers and create a defensive position for security personnel.

Creating Safe Spaces

CAMPUS HARDENING SOLUTIONS

SAFE CLASSROOMS

ADMINISTRATION AND RECEPTION

EXTERIOR SECURITY

PREVENT, PREPARE, PROTECT

Implementing school safety and security measures can be daunting. In today's world staff, teachers, and students need to be protected from active shooters on campus. Administrators are faced with a dilemma: how can security be achieved while providing a safe and non-threatening classroom environment?

Campus hardening is a collection of safety techniques and best practices to reduce vulnerability in school infrastructure in an event of an active shooter attack. Nearly invisible security window glazing, and window film retrofits are protective measures that administrators can implement to provide security from intruders.

When seconds matter, the addition of decorative or concealed bullet-resistant paneling and doors offer an immediate layer of protection while maintaining an inviting campus environment.

- 1 **SAFE SHUTTER™**
Bullet-resistant SafeShutter swings 180° to obstruct an attacker's line of sight.
- 2 **WALL PANELS**
Bullet-resistant fiberglass.
- 3 **WALL PANELS**
Bullet-resistant panel with whiteboard for protection and a classroom tool.
- 4 **SAFE SLIDEOUT™**
Bullet-resistant slide-out effectively blocking the line of sight.
- 5 **WOOD DOOR**
Bullet-resistant wood door and frame.
- 6 **SIDELIGHTS AND GLASS**
Bullet-resistant sidelight offers visibility and light with added security.
- 7 **TRANSACTION WINDOWS AND PASS-THROUGH TRAYS**
Bullet-resistant protection for staff.
- 8 **MAIN ENTRY AND LOBBY GLASS**
Ballistic glazing provides both forced entry and ballistic resistance.
- 9 **SIDE ENTRY AND SIDELIGHTS**
Polycarbonate shield deters forced entry.

Protecting Congregations

MAINTAINING A PEACEFUL HOUSE OF WORSHIP

EXTERIOR SECURITY

FAITH AND SAFETY, HAND IN HAND

In today's unpredictable world, the safety of religious institutions is more critical than ever. Protecting your congregation, clergy, and sacred spaces is paramount, and doing so requires effective, discreet security measures that do not compromise the welcoming atmosphere of your house of worship. Our cutting-edge technology is designed to fortify the security of your religious facility while maintaining its peaceful and inviting environment, offering you the confidence that your community is protected.

ADMINISTRATION

RELIGIOUS CLASSROOMS

- 1 **MAIN ENTRY AND LOBBY GLASS**
Ballistic glazing provides both forced entry and ballistic resistance.
- 2 **SIDE WINDOWS, SIDE ENTRY AND SIDELIGHTS**
Bullet-resistant glazing offers visibility and light while enhancing security.
- 3 **WOODDOORS**
Bullet-resistant wood door and wood frame for UL752 Level 3 protection.
- 4 **INTERIOR GLASS**
Bullet-resistant glazing offers visibility and light with added security for religious classrooms, congregant meeting rooms, clergy and staff offices.

SAFETY AND SECURITY REDESIGNED

Our products are created with any finish or wood species to meet your interior design guidelines and decor themes. We strive to give hospitals and clinics a clean, consistent, warm and inviting look for your patients while giving your employees the safety and security they need. Available for new construction or retrofitting your current spaces.

1 WOOD DOOR

Bullet-resistant and patented wood frame.

2 SECURITY GLASS

Add bullet resistance to door glass and windows.

3 TRANSACTION WINDOWS

Natural voice transaction window with bullet-resistant glass and frames. Add ballistic resistant counters and pass-throughs.

4 ENTRYWAY

Patented entry systems offer maximum forced entry prevention and UL rated ballistic protection.

5 PANELS FOR WALLS AND FURNITURE

Bullet-resistant panels paint-ready or laminate finished. PLAM or RFP surfaces for safe anti-microbial cleaning. Panels can be applied to walls or furniture to enhance ballistic protection.

6 BARN DOOR

3 Panel white barn door with bullet resistant core and stainless steel hardware.

Workplace Safety

OFFICE SECURITY FOR SAFER WORKSPACES

SAFEGUARDING OFFICES INSIDE AND OUT

Seamless protection, safeguarding against forced entry, natural disasters, vandalism, and theft.

By deterring potential criminals and denying them access, these security solutions buy precious time for law enforcement to respond, minimizing the risk of loss and ensuring the safety of both employees and customers.

MEETING ROOMS • SAFE ROOMS

DISPLAY CASES

ENTRY SECURITY

FIGHTING SMASH-AND-GRAB CRIME

Retailers are dealing with threats on an unprecedented level. "Smash-and-grab" occurrences are increasing daily while weak policy makes thieves more brazen. We offer seamless protection, safeguarding against forced entry, natural disasters, vandalism and theft.

By deterring potential criminals and denying them access, our security solutions buy precious time for law enforcement to respond, minimizing the risk of loss and ensuring the safety of employees and customers.

1 MAIN ENTRY
AccessShield ballistic glazing provides both forced entry and ballistic resistance.

2 WINDOWS
Smash resistant glazing offers visibility and light with added security.

3 CASESHIELD™ DISPLAY CASES
Customizable solution for smash and grab crime. A retrofit glazing system that can be conformed to just about any glass display, counter or case.

4 MOBILE SAFESHIELD
A portable, bullet-resistant shield provides 360° protection, easily rotating to block attackers and create a defensive position for security personnel.

1 MAIN ENTRY
AccessShield ballistic glazing provides both forced entry and ballistic resistance.

2 WINDOWS
Smash resistant glazing offers visibility and light with added security.

3 CASESHIELD™ DISPLAY CASES
Customizable solution for smash and grab crime. A retrofit glazing system that can be conformed to just about any glass display, counter or case.

4 MOBILE SAFESHIELD
A portable, bullet-resistant shield provides 360° protection, easily rotating to block attackers and create a defensive position for security personnel.

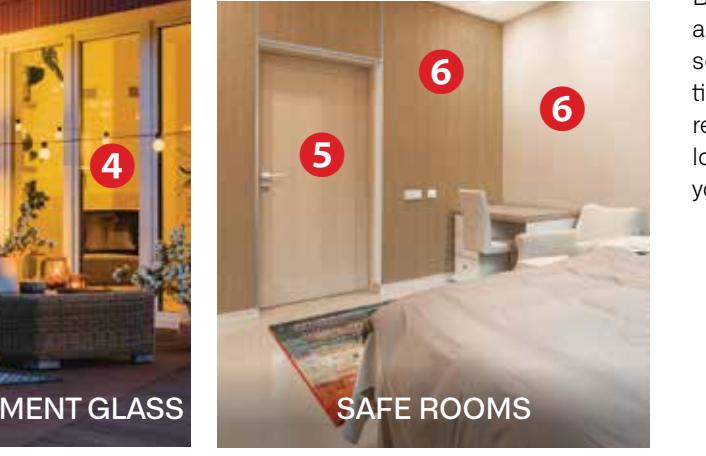

Protecting Your Home

HOME SECURITY FOR PEACE OF MIND

EXTERIOR HOME SECURITY

SAFEGUARDING YOUR MOST VALUABLE ASSETS

Seamless protection, safeguard against forced entry, natural disasters, vandalism, and theft.

By deterring potential criminals and denying them access, these security solutions buy precious time for law enforcement to respond, minimizing the risk of loss and ensuring the safety of your family and possessions.

1 FRONTDOORS AND SIDE LIGHTS
Window glazing offers visibility and light while enhancing security.

2 GARAGE DOOR WINDOWS
MDF wall panelings paint ready and allows for every building or home to have a safe area.

3 GROUND FLOOR WINDOWS
Window glazing offers visibility and light with added security.

4 BASEMENT ENTRANCE
Window glazing offers visibility and light while enhancing security.

5 WOOD DOOR AND FRAME
Bullet-resistant wood door and painted wood frame are designed to prevent forced entry.

6 WALL PANELS
MDF wall panelings paint ready and allows for your home to have a safe area.

ZONES OF DEFENSE

Security solutions designed to protect lives, property, and technology

Impact Security and its subsidiaries understand that there is more than one type of protective enhancement that may be necessary for your building. Our three-zone system approach can be customized specifically for your safety and security concerns.

ZONE 1 - Highest Risk

Primary entry and lobby glass

ZONE 2 - High to Moderate Risk

Side entry doors, exterior windows and sidelights

ZONE 3 - Moderate Risk

Interior glass, walls, and doors

We provide free on-site assessments to help you identify the most at-risk spaces on your site. We can propose a custom solution based on 'risk zones' that combines our expertise and patented technologies with your existing budget, ensuring you get the best our industry has to offer from trusted professionals.

CHOOSE A GLAZING RETROFIT LEVEL TO FIT YOUR BUILDING AND BUDGET

In today's unpredictable world, ensuring the safety and security of your property is paramount. Impact Security offers protective state-of-the-art over-glazing solutions designed to retrofit existing glass. Our innovative products not only safeguard lives and property but also preserve the architectural integrity and aesthetic appeal of these important structures.

Impact Security is the leading innovator in forced entry over-glazing. As the original patent holder, we set the standard in the industry. We handle everything from surveys and manufacturing to installation and warranty. In some cases, we can even help with government grant writing.

Our products include:

- RiotLite: Delays entry
- DefenseLite Pro: Prevents entry
- BulletShield: Ballistic threats

CHOOSING THE BEST SECURITY SOLUTION

To select the best security options, we analyze the risk factors across all the building's elevations. A qualified glazing professional will conduct an assessment and recommend tailored solutions, balancing effectiveness and cost.

RIOT LITE™
Delay and Prevent
 RETROFIT SECURITY WINDOW FILM SYSTEM

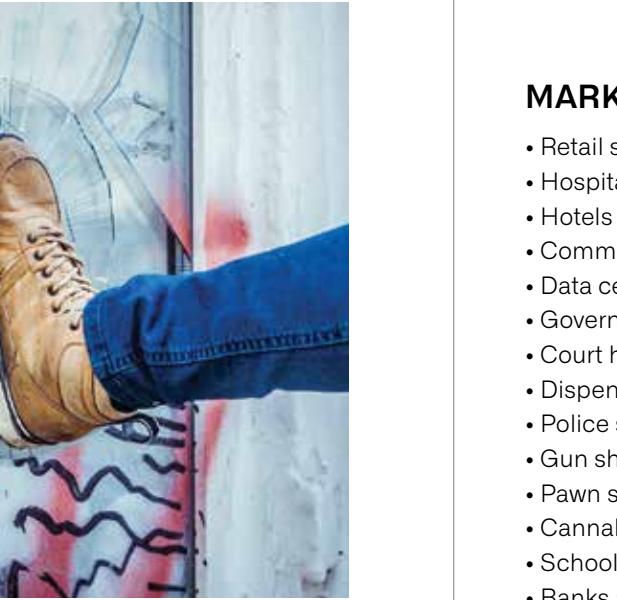

IMPACT PROTECTION

When violence strikes, reliable protection is essential to safeguard your property. Glass windows and doors are the first targets for forced entry, vandalism, and theft, making them a critical point of vulnerability.

RiotLite™ provides enhanced forced entry resistance with an advanced multi-layer security film applied directly to existing glass. RiotLite (RL27) has been independently tested to ASTM F3561 Level 3. It strengthens storefronts, windows, and doors, mitigating risks from riots, looting, and smash-and-grab incidents. With a nearly invisible profile, RiotLite preserves natural light and aesthetics while offering shatter-resistant security and a cost effective solution for discreet yet powerful protection for schools, retail storefronts and other at-risk building glass.

BENEFITS

- Retrofit to existing glass
- Stackable protection
- Provides shatter resistance
- Protection from broken glass hazards caused by impact
- Strong adhesion to glass with shock absorbing properties
- Hard coat provides scratch resistance
- Protect from the harmful UV light and reduce fading
- Easily cleaned with common window cleaning solutions

MARKETS

- Retail storefronts
- Hospitals and clinics
- Hotels and hospitality
- Commercial office buildings
- Data centers
- Government and municipalities
- Court houses

- Residential

ADVANCED FORCED ENTRY PROTECTION

DefenseLite® Pro is a patented security glazing system engineered for maximum forced-entry resistance, meeting ASTM F3561 Level 8 standards. Built with high-optic AR and UV-coated polycarbonates and proprietary aluminum extrusions, it creates a clear, impact-resistant barrier over doors, windows, and storefronts. DefenseLite Pro protects against smash-and-grab, riot, and vandalism threats while preserving architectural integrity. Its patented venting system ensures climate adaptability for cost-effective installation.

BENEFITS

- Polycarbonate over-glaze 250 times stronger than glass
- Proprietary high-optic, UV-coated surface protection
- Framing available in a variety of standard and custom finishes
- Anti-graffiti protection available
- A cost-effective, easy-to-install solution

BULLETPROOF SHIELD™*Armor for Doors
And Windows*

RETROFIT BALLISTIC PROTECTION

**KEEP THE BAD GUYS OUT WITH
RETROFIT BALLISTIC PROTECTION**

Dubbed “Body Armor for Windows,” BulletShield™ is a UL 752-rated ballistic security glazing system, offering a cost effective retrofit for vulnerable doors, windows, and storefronts. Designed to reinforce existing glazing without structural modifications, BulletShield™ is available in polycarbonate-based and glass-clad composite configurations, ensuring customizable protection while maintaining optical clarity and day lighting.

BALLISTICS – BLASTS – FORCED ENTRY

Considered a deadly projectile, glass is a building’s weakest link. A blast from an explosion does not discriminate, expanding radially from its point of origin until encountering solid structures like walls, windows and doors.

BulletShield works to contain fragmented glass from causing harm to building occupants and meets the glazing industry’s most trusted ballistic and blast standards.

BENEFITS

- Safeguards against gunfire, forced entry, and smash-and-grab.
- Cost-effective alternative to traditional bulletproof glass.
- Maintains visibility and aesthetics
- May lower insurance costs

**MARKETS**

DEFENSE LITE® CVS
Reinforce Curtain Walls

RETROFIT VENTED OVERLAY PROTECTION SYSTEM

**A COST-EFFECTIVE SECURITY UPGRADE**

Large curtain wall glass systems are vulnerable to forced entry, vandalism, and riot damage. DefenseLite® CVS is a custom-engineered, high-strength polycarbonate overlay system that reinforces curtain wall glazing while preserving energy efficiency and aesthetics. Designed for commercial and institutional buildings, it integrates seamlessly into existing structures, providing impact resistance against security threats and extreme weather events without altering the façade.

BENEFITS

- Polycarbonate over-glaze 250 times stronger than glass
- Proprietary high-optic, UV-coated surface protection
- Framing available in a variety of standard and custom finishes
- Anti-graffiti protection available
- Installs over existing curtain wall glass without replacement
- Preserves the building’s original appearance
- Improves energy efficiency
- Lower cost than full glass replacement

No Entry, No Harm

RETROFIT SECURITY GLAZING

FORTIFIED PROTECTION, SEAMLESS INTEGRATION

AccessShield™ provides crucial protection to occupants inside a building during an active shooter, armed robbery or smash-and-grab situation. By deterring potential criminals and denying them access, these retrofit door solutions buy precious time for law enforcement to respond, minimizing the risk of loss and ensuring the safety of both employees and customers.

AccessShield is a high-performance door re-glazing system that fortifies commercial entryways. It allows for a standard commercial glass door to be retrofit with bullet-resistant or forced-entry-resistant glazing, turning it into a security-grade door without needing to tear out and replace the entire door assembly. Using a patented extrusion system, it retrofits into most standard door lite openings, accommodating polycarbonate or glass-clad shields from 0.25" to 1.25" thickness. Ideal for at-risk retail, office, and public spaces, AccessShield™ enhances security without affecting accessibility or architectural design.

BENEFITS

- 250x stronger than glass
- UL 752 ballistic Levels 1, 2, 3 and 6 available
- Robust forced entry prevention and protection
- Integrates with existing entry/exit commercial aluminum doors
- Engineered to retrofit current door systems
- Customizable
- Custom finishes available

Authorized Personnel Only

BULLET-RESISTANT DOORS

STRONGER DOORS, SAFER PEOPLE

DefenseLite® Bullet-Resistant (BR) Doors combine advanced ballistic technology with architectural versatility to enhance entryway security in high-risk environments. Designed to withstand ballistic and forced-entry threats, these doors are available in multiple protection levels, integrating seamlessly into buildings. Featuring reinforced frames, bullet-resistant glazing, and impact-resistant cores, DefenseLite BR doors provide unmatched security, ensuring safe access points without compromising design integrity.

BENEFITS

- Ballistic Level 1-8
- Interior or Exterior
- UL 752 Level 1-8 bullet-resistant core
- Solid wood, veneer or PLAM
- Compatible with any handle or locking system
- Low voltage available
- Bullet-resistant glass available
- Craftsman style barn doors available
- Solid wood, veneer, metal or PLAM.
- Historical replication
- Custom options available

CASE SHIELD™

Smash-and-Grab Security

**GLASS DISPLAY CASE PROTECTION
FROM THIEVES AND VANDALS**

PREVENT INVENTORY LOSSES DUE TO SMASH-AND-GRAB CRIMES

Retailers are facing rising smash-and-grab crimes, putting merchandise and staff at risk. CaseShield™ is a custom-engineered retrofit system designed to reinforce display cases and storefronts against forced entry and theft. Developed by Impact Security™, CaseShield provides a durable, high-strength protective barrier, helping retailers protect assets, reduce losses, and deter crime. Designed for seamless installation across diverse retail environments, it ensures maximum protection without compromising visibility.

BENEFITS

- 250x stronger than glass
- Engineered to fit your current systems
- Retrofit your existing display cases
- Complete turnkey solutions
- Patent pending

Sample display case was kicked and hit with sledge and claw hammers repeatedly for five plus minutes without breaching.

PANIC ROOMS

DefenseLite® Bullet-Resistant Wall Panels offer discreet yet powerful protection for offices, security stations, reception areas, and public spaces. Engineered with high-strength ballistic materials, these panels are lightweight, impact-resistant, and seamlessly integrate into existing or new wall systems. Available in multiple UL 752 ballistic ratings, these panels provide a durable security barrier, helping architects and designers create safe environments without sacrificing aesthetics.

BENEFITS

- Military grade protection
- Nontoxic materials, no formaldehyde
- Non-ricocheting (captures bullet)
- Durable, corrosion resistant, low thermal conductivity
- Panels can be field fabricated
- Suitable for indoor or outdoor applications
- 25% less than the weight of steel paneling
- Rigorously tested to meet or exceed UL 752 specifications
- Cut-to-size availability
- Urgent shipping options
- Paint ready options available

BULLET SHIELD™

Creating Safe Spaces

SAFE SLIDEOUT™ AND SAFE SHUTTER™

BULLET-RESISTANT SAFE SHUTTER™

Safe Shutter™ is a bullet-resistant whiteboard that obstructs an attacker's line of sight. In the event of an emergency it can be used as a defensive position providing bullet-resistant safety over windows or doors. This shield can be swung 180° to impede an attacker.

BENEFITS

- Heavy Duty Hinge
- 0° to 180° swing to meet multiple configurations
- Spring-loaded floor bolt with dust proof floor strikes
- Multiple material and design options
- Ballistic Level 3-8

BULLET-RESISTANT SAFE SLIDEOUT™

The Safe Slideout™ is meant to be an inconspicuous addition to your room decor. The bullet-resistant Safe Slideout™ can be finished with plastic laminate (PLAM), wood, dry erase whiteboard or other materials to match interior design and decor. Used to block the line of sight of an assailant.

BENEFITS

- Available in UL3 through UL8
- Any wood species, PLAM or whiteboard
- Heavy duty slides
- Ballistic Level 3-8

MARKETS

- Schools and campuses
- Hospitals and clinics
- Commercial offices
- Houses of worship

Fortified Furniture

RETROFIT SECURITY UPGRADES

RETROFIT FOR SAFETY

Easily transform your existing desks with ballistic protection. When seconds matter, the addition of our decorative or concealed bullet-resistant paneling offer an immediate layer of protection for you, your employees, and your clients without compromising your interior decor.

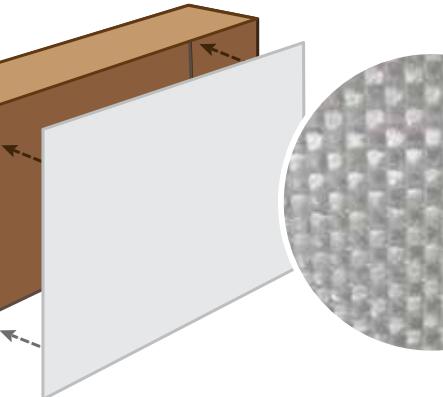

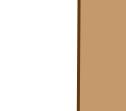

EASY PROCESS

Measure the desk you wish to retrofit. Send the measurements and drawings to us. Our drafter will create a detailed drawing of the retrofit components. Once you receive the drafted drawing, confirm the measurements and design. The panels are then cut to the correct size. Finally, the panels are shipped and ready for easy face screw installation.

BENEFITS

- UL752 ballistic Level 3 or 8
- Ease of installation (can often be done by facility staff)
- Less disruptive than new installations
- Shorten construction timelines
- Use existing furniture
- Cost effective
- Discreet

MARKETS

BULLET SHIELD™

Mobile Safe Shield™

EASY-TO-MANEUVER

Bullet-resistant SECURITY SHIELD

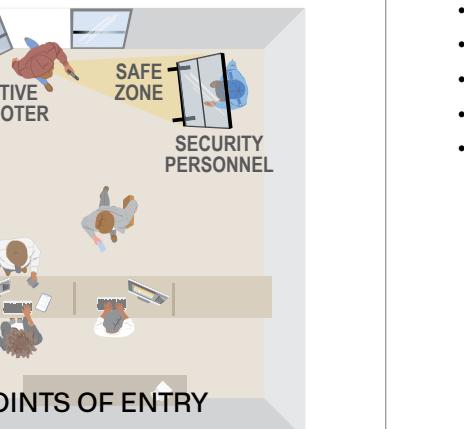

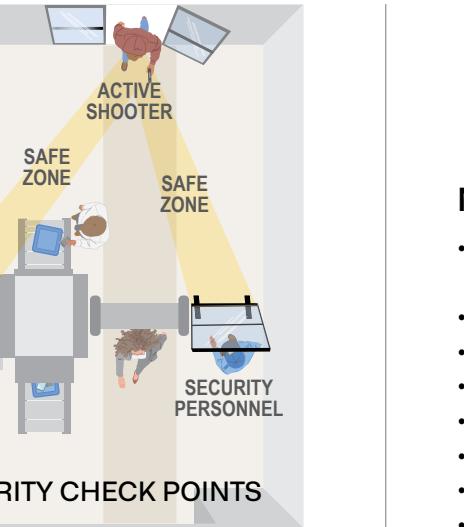

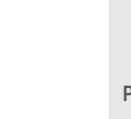

MOVABLE DEFENSE AGAINST ACTIVE SHOOTERS

Mobile Safe Shield™ is a portable, bullet-resistant shield designed for quick deployment during active shooter situations. It provides 360° protection, easily rotating to block attackers and create a defensive position. The shield can be positioned to secure doors, windows, or any vulnerable area.

BENEFITS

- Bullet-resistant UL752 Levels 1-8
- 360° rotation for full coverage and attacker deterrence
- Quick to move for instant bullet-resistant protection
- Easy to maneuver with steel handlebar and 360° wheels
- Ships fully assembled
- Welded all steel frame (black, silver) *Custom colors available
